## CHAPTER 19: Sanitation

**T**he *MIOSHA General Industry Occupational Health Rule 4201– Sanitation* applies to all printing facilities and discusses the following items:

- Housekeeping, waste disposal, and vermin control requirements;
- Requirements for provision of potable (approved for drinking) and nonpotable water supplies. This includes design, construction, and installation of facilities and prohibited conditions;
- Number of toilets or urinals and lavatories required in the workplace;
- Provision, design, construction and installation of toilet, lavatory, shower, washing and clothes drying facilities, and change rooms; and
- Consumption of food and beverages in the workplace as well as food handling protocol.
